CRUEL TREATMENT IS ACCORDED WAR PRISONERS IN GERMANY

SAVAGE DOGS EMPLOYED TO TERRORIZE VICTIMS

Released Medical Officers Bring Horrifying Tales of the Cruelty of the Finnish Huns to Prisoners Held in the Winterberg Camp, and Particulars of Sufferings Endured

The government committee on the treatment in Germany of British prisoners of war, of which the Hon. Mr. Lloyd George is chairman, has today issued a report on the conditions prevailing in the Winterberg camp, where the British troops captured in the Crimea during last year's fighting are being held.

The report is based on information from the medical officers of the camp, and is a graphic and detailed account of the sufferings of the British prisoners.

The report states that the medical officers of the camp have been informed that the prisoners are being treated in a most cruel and inhuman manner. It is stated that the prisoners are being kept in a state of constant terror, and that they are being subjected to a variety of tortures.

The report also states that the prisoners are being kept in a state of constant hunger and thirst, and that they are being subjected to a variety of other cruelties.

The report concludes by stating that the medical officers of the camp are of the opinion that the prisoners are being treated in a most cruel and inhuman manner, and that they are being subjected to a variety of tortures.

report from Major Fretwell, Captain of the 1st Canadian Trench Mortar Battalion, who wrote and sent to the medical corps, who were sent to the front to treat the victims of the epidemic, and who were subsequently released from Germany. The letter stated that the epidemic was the result of a small number of cases, and that the epidemic was not the result of a small number of cases, and that the epidemic was not the result of a small number of cases.

The results of the epidemic, says the British officers, were taken from them before their departure from Germany. The epidemic was not the result of a small number of cases, and that the epidemic was not the result of a small number of cases.

The condition of the camp and the results of the epidemic were not the result of a small number of cases, and that the epidemic was not the result of a small number of cases.

The epidemic broke out in December, 1914. "Thoroughly," says the report, "the camp was disinfected and the medical, prearranged, left the camp and the prisoners were isolated. The epidemic communication was held between the prisoners and their guards, except by the medical personnel. The prisoners and guards or officers remaining outside the camp were isolated." All supplies for the men were purchased inside the camp over the wire. No mail was received from the outside. The war was provided by the German Government.

Captain Laver reports that, while the epidemic was in progress, the prisoners in the camp were not allowed to leave the camp. The prisoners were not allowed to leave the camp. The prisoners were not allowed to leave the camp. The prisoners were not allowed to leave the camp.

As the epidemic who was in charge of the hospital and who, the committee found, "was not particularly anxious for combating the epidemic, and was not particularly anxious for following the report, and that after fifty deaths had occurred among the victims and the victims were buried."

"What the prisoners found hardest to understand was the lack of aid," says the report, "were the prisoners and the efforts were frequently greeted by indifference and even hostility."

After the middle of April the conditions commenced to improve and the epidemic rapidly decreased, and by the middle of May the epidemic was well subsided. Adequate provisions

Shaving a Pleasure—Not an Operation

Let's face it: Shaving is a task that most men dread. But what if you could shave without the irritation, razor burn, and discomfort that often accompany the process? The answer lies in the world of electric shavers, which have revolutionized the way men shave. These modern devices offer a painless, quick, and convenient alternative to traditional razors. They are designed to glide smoothly over the skin, removing hair without the need for shaving cream or the risk of cuts. For many men, the electric shaver has become an essential part of their grooming routine, offering a true shaving pleasure that is not just a pleasure, but a relief.

Preparedness

Now that all nations are talking preparedness, why not discuss health preparedness. While we have been negligent in protecting our country against the enemy, we have also failed miserably in fortifying our human bodies against disease germs.

This has been proven in the recruiting office, where so many men have been turned down by the examining doctors. Weak heart action; diseased lungs; thin, watery blood; defective eyesight, resulting from exhausted nerves. These are among the prevailing shortcomings which the examining doctors find.

Health preparations among the use of preventive treatment, such as Dr. Chan's Nerve Food, to enrich the blood, reinvigorate the starved nerve cells and to keep the health at high-water mark. In this condition you have the strength, vigor and confidence which is necessary to the success and enjoyment of life. You have the vitality to defy disease germs and thereby escape many life which find on you prey in the run-down condition.

Lamovsky Complicates the Problem of Effective Defense

In the earlier phases of the war under, if not most, of the enemy's attacks, the German high command was regarded as realistic. But the more the war progressed, the more it became clear to those who saw it and who have since taken it to task that the German high command was not realistic. The German high command is now known to have been so unrealistic that it has taken almost a decade to bring the German people back to the realization that the Germans are bound to have peace in combination, recently, with the United States, and that the German people will have to live in a peace which will not be reached by the use of force.

There is no doubt that the German high command was so unrealistic that it was not only unable to see the obvious, but also to see the obvious consequences of its own actions. The German high command was so unrealistic that it was not only unable to see the obvious, but also to see the obvious consequences of its own actions. The German high command was so unrealistic that it was not only unable to see the obvious, but also to see the obvious consequences of its own actions.

Australian Maritime has been Australia has overcome its long-standing shortage of seafarers. The country's new maritime law, which will take effect in 1990, will allow the government to recruit and train seafarers from other countries to work on Australian ships. The law will also allow the government to recruit and train seafarers from other countries to work on Australian ships. The law will also allow the government to recruit and train seafarers from other countries to work on Australian ships.

It took a strict order that no officer should be allowed to take a bribe should ever be without his gas but the path will be found that the gas is not on the way.

When the company, he borrowed a field one from a country near by and used it with the brains of a simple man.

"Tommy and I were demanded to leave the place and go to the front."

"For here," he added, "we can carry over," who can you carry over?"

With which he proceeded to open the door and pushed out a gas of dirty water.

A black and white photograph showing a ruler with markings in inches and centimeters. To the right of the ruler is a dark, rectangular object, possibly a book or a folder, with a lighter-colored spine or edge visible. The ruler is positioned horizontally, and the dark object is partially visible on the right side of the frame.

BOYS
Last night, about ten boys, in this vicinity, were playing a game of tag and tagger.

It is reported that a party of boys, on Monday, on their way to school, were playing a game of tag and tagger, and were caught by a patrolman.

One of the boys, named Jack Smith, was caught by a patrolman, and was taken to the police station.

He was released after a short time, and was taken home by his mother.

Organized Agriculture
France Provides for the Organization of the Farming Population

A survey of the summer of 1929 Mrs. de France provides for the organization of the farming population in every rural community in the republic. An American representative to the meeting in each community there has been a considerable increase in the number of farmers.

re of industry. The communists are again agitating the workers against the masters who are doing good to the workers abroad and in parts of the country.

Even before the war French agriculture was strongly organized and remarkably prosperous. It was the most efficient and productive in Europe. France has shown a quickness and logistical capacity in the war that has astonished the world, and a resource of courage and will which are the admiration of all who observe it.

It is a great pity that the fundamental thing is so sound, fundamental, and at the right time. The general situation of the world is such that French rural communities have been put in a position which is not capable of

to carry. It is the small, steady, long community work which, like the long, Organized large union, finds the way to the personal, neighborly, and honest, and an organization becomes impractical, unworkable and political. It degenerates into a mere political machine. The small officials are apt to use for their own purposes only the small means, with a little corner and a little corner, and a little corner developed, and given a fair share, it has functioned effectively. The idea of which it is the concrete result is that the small community be adopted by every farming community in which there is a sufficient population supported by necessity.

Twentieth Century Farming
At Laandale, Penn., plunging at night by artificial light has been introduced, to make up for the delay caused by the late coming of the moon. A team was used and worked for the purpose. It was fitted

with an acreage of gas land and a ranch, and by means of it and three shafts of workers the ploughing was continued for forty-eight hours.

The Landslide experiment was designed merely to meet an emergency. But we may yet see our up-to-date farmers employing tractors and artificial licks regularly every year.

Certainly the farming of the future is going to be done on other hoofs than those of the past—Providence Journal.

THE CONSERVATOR

Published every Thursday at Fort Bank's

Again we hear rumors of an early election in Alberta. It is significant that all this talk comes from the government in power, while the opposition leader, Mr. Michener, who has just returned from a canvassing trip to California, declares himself against a proposal.

The government at the last session held made no provision in the estimates for an election which is the usual procedure for a responsible government in such a case.

It is a most unfavorable time, and probably the most urgent objection to that of bringing on an election now would seem the disfranchisement of 30,000 voters in Alberta who are now fighting, or are preparing themselves to fight the Empire's battles.

A map verdict with this army of qualified voters away would be so manifestly unfair to the majority that the voters at hand would loathe to consent to such an action on the part of any government.

If an election is called, with 30,000 soldiers disfranchised, fifteen months to have overthrown the temper of the men and women voters of Alberta.

Next Tuesday Oct. 1st being Halloween on the evening will be devoted to youthful revelries, as usual, therefore it will be expected for the careful householder to nail up his gates and leave nothing movable in the yard but the dog. And even then "The Gobbles" will get you, if you don't watch out.

It is with sincere regret that we hear this week of the death of that gifted writer, Norman Duncan. Deceased was one of our few Canadian authors, being born at Brantford, Ont., and educated at Toronto University. He wrote a series of healthy booklets, and has been writing articles on Australia for Harper's Magazine.

PROBLEM OF DISABLED SOLDIER IS RECEIVING MUCH ATTENTION

BRITAIN ADVISED TO FOLLOW CANADA'S EXAMPLE

The Aim of the Military Hospitals Commission is To Do its Best
For the Physical and Economic Well-Being of the Disabled
Soldiers, Helping Them in the Most Practical Way

Mr. J. J. Lafferty, director of the Upper East Library, gives the most pertinent answer to the question of the importance of spontaneous and remarkable happenings in the life of a community and their effect upon the community. Mr. J. Seaton Jolly, gives us as far as is possible, a picture of the life of a community, and the effect of the community on the individual (thus, though, might I add, the example of the Dominicans. He says:—

One of the most difficult questions in the history of the community is that of dealing with the broken men who are far from participating in the life of the community. The answer to this question has not yet been found. It is

ough, and it has an efficient and experienced secretary in Mr. E. J. H. Smith, who has been in the country at least once by experience, and is thoroughly conversant with the situation. At first, the general idea was that conscription houses, where discharged soldiers could find a time for rest and refreshment, would be the best way of dealing with the masses of homeless and hundreds of workers who were thrown out of their employment. But this idea was soon abandoned when it was found that the treatment of the discharged soldier was a mere refuge and lonely house in the middle of the city, where the atmosphere of such a home would tend to make rather than strengthen the soldier's attachment to his country. A source on our frontier says that the Government has already stated that, instead of being a refuge for the discharged soldier, the houses of the State, be known as conscription houses, and that the Government will be able to take care of the soldier, of conscript, and of the discharged soldier.

I would be a cheerful thing to see the Government take the lead in this matter, based upon the same sound principles established in these schools.

member of the Commission, has to say on this subject in his introduction to the Commission's special bulletin —

The supply of comforts which in many cases were hitherto, developed and distributed by private individuals or by one or two private firms in the interval between shipment and receipt, is now being supplied by the Government, and it is to be hoped, that the experience now to be gained in this connection will be most beneficial to the best interests of the

isoged periods which have been returned from a business trip to the United States. The first conference was held at the home of the wife of the chairman, and there were places of relaxation, the right one which experience has taught me to be the best for the work of rehabilitation. In other words, we are changing as rapidly as our environment, and we must be able to change with it. In the hospitals where, in the interests of the men, their time will be fully occupied, we must be able to change as rapidly as possible. We must be able to make it as perfect as possible, and, from the beginning, the last effects of the war must be taken into account.

These are golden words which those who are responsible for our wounded veterans will do well to remember.

It would be interesting to follow the history of a few typical cases of soldiers who were injured in the battle lines. Of course, the injured man may be cured and return to the life he led before the war. So far as the Government is concerned, and he may have to wait half a year before he arrives there. He is taken to the hospital, and after a

ANGLO SAXONS ENTERING TO DAY

FOR FREEDOM AS IN THE PAST

This situation is significant at least in that it is a reflection of your history. You have chosen as your competitor, I suppose, a British country, which, upon the eve of the outbreak of the English-speaking 1850's, does not, in its 20th-century state, have a large population. It is not the English-speaking people, then, that are responsible for the rearrangement of the American colonies. It is the people of the United States with their history, much longer than that of the United Kingdom, that are responsible for the rearrangement of the American colonies. The United States has been down to the roots of the thought that the United States is a country with a material on river side. The flags were divided, but both remained, and the United States is a country with the forms of government were

Local Band Makes Presentation To London

The annual given by the members of the local band and their wives and friends last Friday evening in the City Hall, was a brilliant success. During the evening the players a number of patriotic airs, the audience, consisting of members of the band, who rendered several pleasing selections.

The main feature of the evening, however, was the presentation to Mr. G. T. Montgomery, the bandmaster, of a handsome music cabinet. Mr. Monty, who made the presentation, was commended by Mr. Gittner very highly for his generosity in giving his time and services free to the organization, also mentioning the excellent progress made under Mr. Gittner's leadership. Immediately after this the band played "For He's a Jolly Good Fellow."

Mr. Gittner, in reply, expressed his appreciation and surprise in a very kind speech, thanking the members for their co-operation and help. He said this was the only way in which the organization could be made a success.

The remainder of the evening was spent in playing games, which everyone enjoyed.

The ladies assisted very materially in making the evening a success by supplying coffee, etc., etc.

The band is now in excellent working order and much credit is due those who performed its organization.

They held every Tuesday and Friday, which the majority of the members are loyal regulars.

Suggest Reply to Bryan Press Plan to Visit Regina 20th

London, Jan. 3. —While no reference has been made to official circles in the telegram which William Jennings Bryan sent to Lloyd George urging an early peace, the London papers have commented on it.

The Times suggests that the premier should make the example of the late Lord Chamberlain under similar circumstances in the matter of entertaining in 1906. A distinguished politician at that time sent Bryan a telegram.

"That we stand at church parade next Sunday night Jan. 10th—Yours Faithfully Peter."

The reply came quickly:

"Yes, Lloyd George Jan. 10th—Churchill, Best love home."

Will Open Studio Here

Mr. Stephen Harris one of the leading portrait painters of Vancouver, has just opened a studio here. He will be at the Hamilton Hotel on Tuesday, January 10th, and every succeeding Tuesday thereafter. Prospective pupils should take advantage of this opportunity to receive personal instruction under the tuition of a teacher of such high known ability as Mr. Harris. For advertisement in this issue for further particulars.

But in Berlin on Peace by August

London, Dec. 28. —A President dispatch to the London Telegraph Company says that according to reports there were heavy betting on the Berlin exchange market that peace would be signed by August.

The same dispatch says that the German emperor will return to Berlin in the near future, and that the American and Spanish ambassadors.

Parliament to Meet on January 10th

Ottawa, Dec. 28. —An extract of the London Gazette was issued today formally calling parliament for the dispatch of business on Thursday, January 10th. The House is at all probability would not have been convened for a week or fortnight but it is not known for the moment by the speaker by Premier Lloyd George of Great Britain that an imperial conference to deal with our matters will be held in London towards the end of February. It is reported that Premier Borden will attend this conference. Whether or not the house will continue to meet during the absence of the prime minister will depend, it is expected, on the developments after the House meets.

Japan Plans Grand Program For Navy

Tokyo, Dec. 28. —A great program of naval expansion which by the end of 1921 will give Japan overwhelming superiority over all other navies in the Pacific, including that of the United States, was officially announced today.

Beginning in 1916 the government will transfer nearly \$10,000,000 from the sinking fund to the naval construction fund.

By the end of 1920, it is estimated, Japan will have built three new battleships, two battle cruisers, nine cruisers, twenty-five destroyers and sixteen submarines. This will bring the battle fleet to be the equal of the most modern battleships and four battle cruisers.

Toronto Soldier Taken to Berlin

Off Berlin, Dec. 28. —A newspaper German man rider, which broke through the British blockade and destroyed a number of ships in English waters, has been captured. It is now in Liverpool harbor, according to information brought here today by the American liner Pallas.

The capture, it is said, was made by the converted British armor Tormentor, now where the Lusitania was torpedoed off the Irish coast. The soldier gave battle, but was forced to surrender. It is understood the German ship was taken about two weeks ago.

For many weeks before these had been rumors in British circles of a German rider in English waters and it was supposed that every day it passed a heavy boom sent by the British fleet to the American liner Pallas.

Among the 400 passengers on the Pallas were two British ships, the ship on which, the vessel was captured by heavy guns on Irish coast.

LOCAL NEWS

Mr. W. J. Williamson spent last week with his daughter Mrs. C. H. of Saskatoon.

Mr. Hugh A. Macdonald has completed his studies at the University of Toronto, and is now in the city.

The Fort Saskatchewan Band, gave a concert on April 13th at the Fort Saskatchewan Hotel.

John Martin of Pine Creek, returned from a visit to his home in the United States, and is now in the city.

Mr. W. J. Williamson, who has been a resident in the city for some time, has been elected to the position of member of the Fort Saskatchewan Board of Trade.

The annual St. Patrick's concert, held on the night of the 17th, was a great success, and the proceeds were used for the benefit of the St. Patrick's Society.

which was announced last night, was not communicated to only one man, but to a large number of men, who were among those who were also by the director in which they had been placed. The director is participating in three committees.

When, before the war would have thought as a matter for the threat of the war, he had found that way in the common sense, general affairs and all that was necessary to maintain the country, there could be moved it, because it was the world. That was the reason that the very best of the country has been

[illegible]

suppressed in 1906.

Lessons that were supposed to have been learned in the Russo-Japanese War have been found to be useless or even misleading as far as the present situation is concerned. For instance, after the Japanese attack on the Russians at Port Arthur it was said that the torpedo craft would be the real factors in future wars, and it was expected by some that these vessels would be able to break up the Grand Fleet. They have failed not only to live up to the predictions made by their admirers, but to cut any figure at all. Shortly before the war began it is said that

power, the "dreadly accuser" spoke of three years ago is a myth in the battle of Jutland there was no grand torpedo success and Sir John Jellicoe says that a great number of them were apparently fired. Nor has the mine been made of a factor in the struggle and it would have achieved much less than has been accomplished had it been employed by a nation adhering to civilized means of warfare. German weaponlessness, however, has scored some successes with the mine. Neither the mine nor the submarine nor the torpedo can decide this struggle. At best they may assist in the battle.

actions there is to be seen "the interdependence of the naval and military forces. The fleets of nearly all the Allies supply ships operate with and protect the flanks of their armies. It was the turning of their flanks by the Russian fleet which materially helped to force the Turks out of Trebizond and other places on the Caucasian coast. It was the failure of the German fleet in the Baltic to accomplish a similar purpose that enabled the Russian to maintain their hold on Riga. There is also indicated by the events of the war the necessity of doing more power. It is the malady of the present generation to do many things in a halfhearted way.

and the comfortable reflection that the navy will do him jobs for us, which many sympathizers of the late government is fast in its tendency, toward inertia and stagnation.

"Turning to the material, the budgetable maintains its pre-eminent position as spite of every attempt to threaten its supremacy by value and savings. Care has been taken to protect it from these devices, whose power has thus been nullified. The government has not shown itself in any way to be more than a weapon of attrition and not an entirely effective force in the direction

During its service, the ship would be considerably modified. Entirely new light has been thrown upon the battle cruiser, which would type line justified the hopes entertained in regard to it. Connected with this subject the war value of speed has been demonstrated. This was shown quite early in the war by the achievements of the German raiders in the North Sea and again when Sweden's battle cruisers made their swift and silent journey to destroy von Spee's squadron off the Falklands. It has also been exhibited many times in the North Sea, where an excess of speed on the part of the British raiders has been

and it has been found that it is not infrequently an over-estimate of a person's ability to do a job. It is not only a waste of money, but it is a waste of time. The only way to find out if a person is capable of doing a job is to give him a chance to do it. This is the only way to find out if a person is capable of doing a job. "I'm not a doctor," says Dr. David S. Reardon, a board-certified dermatologist in New York City, "but I can tell you that the skin is the largest organ in the body. It's the only one that's constantly being replaced. And it's the only one that's constantly being damaged. So it's important to take care of it. And that means using sunscreen every day, even when it's cloudy. And that means using a moisturizer every day, even when it's not dry. And that means using a retinoid every day, even when it's not wrinkled. Because the skin is the only organ that's constantly being replaced and constantly being damaged, it's the only organ that needs constant care. And that's why I recommend using a retinoid every day, even when it's not wrinkled. But the better lines will be those that are not too close to the body. The French have a saying: "The dress is the woman." The ideal dress is one that is not too close to the body, but is not too far from it either. It is a balance between the two. The French have a saying: "The dress is the woman." Behold An Advertisement

I came into being as the spoken language came, slowly, gradually and to meet an urgent need. I have been worked for evil, but mostly I have worked for good. I can still be worked for evil, but each day it grows more difficult so to do.

I am at once a tool and a living force. If you use me wisely, I am a tool in your employ. If you misuse me my double edge will injure or destroy you. If you do not use me, I am a force and purposes that animate your business.

I speak a thousand tongues and have a million voices.

I am the ambassador of civilization, the handmaiden of science, and the father of invention.

I peopled the prairie, and with my aid commerce has laid twin trails of gleaming steel in a gridiron across the continent and stretched a network of copper into the far corners of the globe.

I am the friend of humanity—for I have filled the commoner's life with a hundred comforts and ended the king of yesterday.

I have brought clean food, healthful warmth, music, convenience and comfort into a hundred million homes.

I laugh at tariffs and remake laws.

I am advertising.

this is a thinly veiled attack on the emperor himself. The chancellor is his creature, appointed by him and responsible to him. The attack on the servant is in effect a revolt against the master.

The media's re-assignment. They indicate a degree of interest in politics to indicate that few people to exist there. We may be sure that exaggerated reports have not been allowed to pass the censor. When we have read probably false facts about the situation. There is every reason to believe that the situation of the continued reverses suffered in the war has stirred the German people to protest, and even to the point of the government responsible to the people. Quality in the Right Place

Expensive upholstery doesn't prove that a car excels in quality. The real quality of the car is determined by its chassis—its power plant, transmission, axles, etc.

Both by laboratory tests and actual service tests, the different parts comprising the Ford chassis have proven themselves to be the best in their class. Ford V8s are the best in their class.

We would ask interested purchasers to place their order at once, as we do not have them on hand when they need it.

Silk Cheaper Than Cotton
A United States banker has suggested that all cotton be replaced by silk in the garment industry to stimulate the silk market. The banker pointed out that silk is an easy-to-manufacture fabric that has been in this country for years. He said that cotton is a foreign product that is not as good as silk.

Honoring a Hostler

Thomas A. Dyer, the Irish American poet, was interviewed by me on the occasion of his lecture at the University of Tokyo. He was accompanied by a hostler, "Sam," whom he described as "what the natives with such frankness have always looked for here in Japan."

Mr. Dyer nodded gratefully when I asked him if he had seen any of the "ladies of the night" in Tokyo. He said—Derek F. Davis

He said in Japan, and in leading cities, the Japanese have been drawing the U.S. increased expenditures on the military and the U.S. military's return, Japan now leads in the world in the number of U.S. troops.

Japan is growing increasingly more dependent on the U.S. and the U.S. is wealthy at that point from the Japanese. Japan is now Germany through Japan.

This Store Has a Pure Food Law of Its Own
It applies to everything, and everything must live up to the standards of this law. You might think that some things (canned goods, for instance) would have to be taken on trust but at this store you can see before you what is in the cans of these goods, and you can see what the labels say and you can see the quality.
The result of this is that this might be a good place to come when you want your food supplies.

PORT SASKATCHEWAN BRANCH
A. B. HARRISON, Manager

The name of Langemarek has a very familiar ring in Canadian ears, and the recent capture of that place was the last day of April in 1915 when our Canadian soldiers, now the victors of Hill 70, and who are doing such effective work in the suburbs fighting in and about the city of Lens, stood before Langemarek and St. Julien and went to the point where the British where their line joined that of the French Colonials.

It was upon these French Colonials in 1915 that the German butchered their prey. For this for the occasion was a great surprise and a most effective offensive weapon, for the French soldiers were obliged to retreat clear across the ground they have been taken in the present fighting, back to and across the Yser Canal.

This retreat of the French left the Canadians, as will be remembered, alone to face the enemy. This was the occasion on which the name of Canada first became celebrated the world over in the present war. For with the steadfastness and courage which have since become their well known characteristic, our men refused to retreat. The fight they made here undoubtedly, as has many times been pointed out, held the Franco-British line, blocked the German advance to Calais—"saved the day" in the words of Lord French in making his report to London.

National Government

It begins to look as though the idea of a National Government for Canada was about to be attained. This is a most encouraging and satisfactory development. Sunday secret confabulations of people from the West, along with Sir Robert Borden and other Federal Cabinet Ministers have taken place at Ottawa, and although the result is not yet assured, the indications point to such a consummation.

Premier Sir John D. Thompson, Mr. James A. Calder, from Saskatchewan would appear to be the men designated to represent those two Provinces in the Coalition Government. It is a matter interesting to note that they were leading spirits at the Winnipeg Convention. It is probable that their eyes have been opened to the fact that the Convention in that strong partisan spirit did not represent Western Liberalism, and also to the fact that to support Confederation and at the same time to support Sir Wilfrid Laurier is an impossible task even for clever party politicians.

In any event it is fortunate that two such strong men have been put forward as candidates to confer with Cabinet members at Ottawa, apparently with the object of forming a Union Government.

If such a government were finally organized two results at least should follow: one, the immediate enforcement of the Military Service Bill; the other the calling off of the proposed general election. In any event should an election then be held it would lack a great deal of the disintegrating effect which would be incidental to a contest fought out on party lines at the present time.

By the Way

The great Italian offensive may be taken as the answer of Italy to the Pope's peace proposals.

Who will be the leader of the Canadian Union Government?

The Hon. Bob Rogers appears to have been a very real candidate in this line.

The funds called for by Great Britain and the Allies from Canada and the United States are being, loaned, and what. These are export charges.

Press comments on the Chateaugay coming to the Fort in October are altogether commendatory. At Regina it is complete nonsense in every way—financially, artistically and substantially.

Indications are that the cereal crop of the Dominion this year will be quite as good if not better than last year. In a part of the country at any rate this is true.

A War Certificate will soon be within the reach of everyone. The Minister of Finance announces a certificate to sell at \$6.00 to return \$14.00 at the end of three years.

The fact that the orders for the production of munitions in Canada are being set down indicates a plentiful supply in France. Regard heretofore can supply the requirements of the firing line.

Over in B.C. the hoteliers are going through the

same trying experience Alberta hotelkeepers passed through a year ago. Here the man who refused to get down to business had to get out.

Fish is to become more plentiful in the Canadian markets. Hon. W. J. Hanna, Food Controller, has inaugurated a special refrigerator export car service direct from the Nova Scotia coast to Toronto. This is the first step in a plan to put on a fish car express service from both Pacific and Atlantic points to supply Canada with sea food cheaply.

King George conferred the Order of the Knight Grand Cross of the Bath on James W. Grand, formerly American ambassador to Germany, in recognition of his efforts to ameliorate the lot of British prisoners in Germany. This title involves knighthood with the predicate "Sir". The King has as a new device for binding the two countries together.

Wet and Dry Periods Come Alternately	Valuable Addition To Canada's Wealth
And Have Been Doing So For Three Centenniums. Makes Valuable Copper Thousand Years	Discoveries in the Arctic Region

W. H. U. 1100

"There's one good thing about golf."

"What is it?"

"It's seldom that your wife insists on you taking her to see it played."

He chose Wauluck, but would not have considered an exposed spot had he not been limited to a radius of 12 miles round London. For 20 years Schalk was superintendent of foundries, and not a single accident occurred during that time.

YOU would replace your "general utility" team with a powerful, sturdy, Ford car at once, we believe, if you but figured the matter out carefully.

A Ford will run your errands for repairs, grease, mail and countless other necessities quickly and cheaply. It will save you weeks of time and money. It will be one of your best investments. It will make your life more enjoyable. You need a car and need it badly. The Ford is the utility car for the Western Farmer.

STOP HEADACHES BEFOREHAND

You never had a headache when you were well.

To keep well is to keep clean, inside.

To relieve headaches, and to prevent them, keep your bowels and intestines and stomach in regular motion.

Small quantities of Chamberlain's Colic, Cholera and Diarrhoea Remedy, given regularly a large, healthy condition of the bowels grows the way.

CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY

Small doses frequently.

Chamberlain's Colic, Cholera and Diarrhoea Remedy is the only medicine that will cure the most distressing cases of these diseases.

CARTER'S HOPWELLS will help this condition.

What Will Canada's Answer Be?

OVER in the sodden trenches amid the bursting shells and the roar of artillery where Canada's boys are fighting and dying—
—they are waiting for Canada's answer when the role of Victory Bonds begins.

CANADA'S soldiers expect that as all home will put up the millions they must have to win Victory for Canada, home to win Canada.

What answer will you make? Shall it be said that Canada spares not her sons from the sacrifice of battle, yet withholds her dollars to give them victory?

Rather! Will it be said that Canada's sons are not the first to put up their millions upon millions for the cause of freedom, right, and justice?

Canada's answer must be, that the Canadian hand in the glove of Victory holds steady and firm.

That is the answer Canada will give to our boys in the trenches, our kinsmen in Britain, and our Allies everywhere.

That is the answer we will give to the House of Commons, and to the Empire before we shall light the way.

Every bond you buy is an answer. Let the millions of answers from Canada's local men and women make a chorus of Victory to ring around the world.

The Fort and the Elections

Fort Saskatchewan is rather peculiarly situated in a political sense. The dividing line between Strathcona and Victoria Ridings is the correction line which runs through the north part of the town. Part of the town is therefore in the southeast extreme of Victoria Riding and part in the northeast extreme of the Strathcona Riding. The party interests are therefore somewhat divided as to the personnel of the candidates at the approaching election.

The East Edmonton constituency comes to the north limits of the Saskatchewan River, so that the town is in a certain degree interested more or less in the candidates in all three constituencies.

In Victoria Riding candidates are fairly numerous—there are candidates looking for the nomination. In the Edmonton H. A. Mackie is the Conservative nominee and Alex. May the Liberal nominee. Both men were nominated at party conventions some time ago. In Strathcona the party nominees both resigned and are in the field for the Unionist nomination.

The Unionist Convention

A Convention for the Strathcona Constituency to nominate a candidate who will support the Union Government at Ottawa is called for Friday of next week, November 9th, at 1.30 in the afternoon. By a practically unanimous vote at a gathering of electors from different parts of the Constituency, which met last Thursday evening in Strathcona, it was decided that the convention should be a public convention, and that the only condition required in order to vote for a nominee, be that the voter intend to support the Union Government on December 17th. It is the business plan that not only will the Unionist Convention be democratic in form, but that every elector who is interested in the nomination of the man who may represent him at Ottawa in Canada's next Parliament, should be at Westminster on Friday.

There are two candidates now in the field for nomination—James N. Douglas and A. B. Aldridge. Mr. Douglas has been the member for Strathcona for some years past, and was one of those Liberals who for the time being cast aside party affiliations to support the Military Service Act. Mr. Aldridge, who several years ago received a very high and commendable nomination from a Conservative Convention, is well and favorably known throughout the Constituency and especially in the Fort Saskatchewan District. Both of these gentlemen are white-haired, spry old men of Union Government until the war is won.

All voters, men and women, living within the bounds of the Strathcona Riding, who can possibly do so, should arrange to attend the Unionist Convention on Friday.

Patronage List to be Abolished

The Canadian Government—the Union Government—that it will abolish the patronage list in every Department. This step on the part of the Government is one which most people will commend, as it means the recognition of merit, rather than party service, in employing Government servants and assigning Government work. The step is one, however, which will not be greatly appreciated by a fairly numerous class of persons who are in evidence especially at election time. These persons work for a party with the sole aim, evidently, that after the election is over they will retire from active work and become pensionists some in the pay of the party they have served.

It must therefore be a great satisfaction to many who will actively support the election of Unionist candidates in December to know that there can be no question of pensioned interest, nor questioning of motives due to advantage of a material nature will come to such workers. They will expect to continue to work in a government and general way, which will provide for them benefits and conditions only they escape from a period of idleness to work at the same condition. Their sole satisfaction must be that they will have done something to place in power a government which is already proving its desirability in the shape of saving out of impotence to a successful prosecution of the war.

The manufacturers more will probably be a drive for them.

British has taken her stand with the Allies against Germany. She has said in arms against military aggression will be a reality.

Most Canadians want to see the war won. How to win it is the question. The election of Unionist candidates means the more earnest of the Military Service Act.

American's five billion dollar Liberty Loan was subscribed in the last twelve hours. 100,000 Americans subscribed. The Government of Canada is endeavoring to make our Victory Loan just as successful and popular.

Hon. F. B. Carroll, Minister of Public Works, has indefinitely postponed work on the construction of the extension of the Napre-town breakwater in the harbor of St. John, N.B. The Minister of Public Works is at a good start.

Italy's outstanding power depends from now until harvest upon the ability of Great Britain and the United States to supply her with 350,000 tons of grain per month in all she is short 3,000,000 tons. The necessity of going slow on wheat products become more evident each day.

German military men cannot understand why the Allies do not invade Holland as an easy method of reaching the Rhine and to beat Germany. "Honor" is not a word to be found in the vocabulary of the rulers of the German Empire.

"In everything else I am with Laurier but when he told me that he did not believe in the principle of the selective draft, that if he was returned to power he would not enforce that law, his operations would cease, he would not voluntarily enlist against him and if it failed he would refer the matter to the people in a referendum, then I believed that the time had come for us to part company. There is only one issue in Canada now and that is to carry on. Are we going to do our full share? That is the question. We must either stop or go forward."—Hon. Jas. A. Calder at Vancouver.

British has taken her stand with the Allies against Germany. She has said in arms against military aggression will be a reality.

Most Canadians want to see the war won. How to win it is the question. The election of Unionist candidates means the more earnest of the Military Service Act.

American's five billion dollar Liberty Loan was subscribed in the last twelve hours. 100,000 Americans subscribed. The Government of Canada is endeavoring to make our Victory Loan just as successful and popular.

Hon. F. B. Carroll, Minister of Public Works, has indefinitely postponed work on the construction of the extension of the Napre-town breakwater in the harbor of St. John, N.B. The Minister of Public Works is at a good start.

Italy's outstanding power depends from now until harvest upon the ability of Great Britain and the United States to supply her with 350,000 tons of grain per month in all she is short 3,000,000 tons. The necessity of going slow on wheat products become more evident each day.

German military men cannot understand why the Allies do not invade Holland as an easy method of reaching the Rhine and to beat Germany. "Honor" is not a word to be found in the vocabulary of the rulers of the German Empire.

"In everything else I am with Laurier but when he told me that he did not believe in the principle of the selective draft, that if he was returned to power he would not enforce that law, his operations would cease, he would not voluntarily enlist against him and if it failed he would refer the matter to the people in a referendum, then I believed that the time had come for us to part company. There is only one issue in Canada now and that is to carry on. Are we going to do our full share? That is the question. We must either stop or go forward."—Hon. Jas. A. Calder at Vancouver.

You will heartily enjoy the taste and aroma of Cowan's Perfection Cocoa — and further, it is the most wholesome nourishing Canadian beverage.

The first arrival.

One of the largest sheep operators in Southern Alberta is Mr. J. T. Henninger, of Wellington, Alberta, who has recently received a consignment of 2,000 sheep on the range at the present time. This year he expects some 75,000 pounds of wool to be produced for sale, obtaining a price, it is held, to be well satisfied, and which yielded him a good return. In his flock are some of the best bred of sheep will be produced in future seasons. Henninger, on the southern prairie and he has just purchased two tons of this breed from the King establishment in Wyoming.

There is considerable cause to believe that the German mind still refuses to realize. As Germany grows more conscious of her position, she can realize her world while must believe the destruction of the existing German government. For when the German people grow so much that they can see the real cause, involving a renunciation of all the plans of conquest and spoils, the German people will be able to realize the world. It can have no American say in a Germany of the world of the future.

DO YOUR SHOPPING IN THE FORT

The Best Farm or Ranch Car

YOU could replace your "general utility" team with a powerful, sturdy, Ford car at once, we believe, if you had figured the matter out carefully.

The Ford is especially suited to western conditions and your needs. It is equal to rough roads, big loads and long distances. These are the very facts in which you will put your trust.

A Ford will run your errands for repairs, grain, mail and countless other necessities quickly and cheaply. It will save you weeks of time and money. It will be one of your best investments. It will make your life more enjoyable. You need a car and need it badly. The Ford is the utility car for the Western Farmer.

A Better Understanding

Japan and the U. S. Reach Agreement to Sign Pact to Suspend to China

Japan and the United States have reached a complete agreement in regard to China, and at the same time have arrived at a clear understanding as to military, naval and economic co-operation in the war against Germany.

This momentous development was announced by Secretary of State Lansing, who made public notes exchanged between the two governments. The special Japanese ambassador, Count Hirota, and the American ambassador, Mr. Grew, are expected to sign the pact.

Japan has a special interest in China, she preserves the independence and territorial integrity of the great eastern republic, and she offers the firmness of the "open door" but commerce and industry.

Saved by the War

He was a young aviator and by the time he is on his way "Over There." A few months ago he was creating a stir as a contender in New York's boxing ring nearly all night and staying up nearly all night at the club scene. The night before he had been saving him (though at an opposite table) "If this war hadn't come along I do not know what would have happened to me. I'm afraid I may end up as a pirate," he comments. "I can look a lot of folks in the eye now that I've seen them in the trenches."

Christmas Greetings

The election being safely over we are reminded upon looking at the calendar that Christmas is less than a week distant.

We hesitate at the fourth Christmas since the war was started to wish our readers a Merry Christmas. It is hardly the word. Possibly it would be more in keeping to wish them a Happy Christmas and Prosperous New Year.

The fact of the war overshadowed our festive—had it been added to rather than taken away from the true realization of the meaning of the Christmas-tide. On Christmas Day we celebrate the birth of Jesus of Nazareth. His name stands for service, sacrifice and joy. Many people have in the last three years and a half been called upon to experience deep sorrow and to know the joy coming from sacrifice in a just cause. This joy, possibly, though it may appear paradoxical, constitutes the deepest happiness.

The birthright of our Lord and the Christmas Season call to our minds with emphasis the noble and enduring qualities of the happiness resulting from unselfish service, sacrifice and devotion.

We wish you the season's best wishes and all possible Happy Return of the Christmas Day.

The Election

The people of Canada have spoken their mind with the wisest emphasis regarding the question which has been at issue during the campaign just closed. The supporters of the Union Government have maintained that a selective conscription measure is the most efficient and effective means of maintaining Canada's position in France. The supporters of the Mr. Wilfrid Laurier have held that voluntary service can do what is required.

The majority of the electors of Canada are decidedly of the opinion that Conscription is the necessary and proper means of raising our army from zero.

The attitude of the Province of Quebec to the question is quite as clear as that of English-speaking Canada. The Union Government will be called upon to exercise greater patience and care in enforcing the law of the Dominion in that Province. The result will be a test of the real influence of the Mr. Wilfrid Laurier in Quebec. He stands for obedience of the law. The question is, does he control Quebec, or are the French-Canadian people of Quebec under the control of Henri Bourassa and his ilk who appear to have but scant respect for law?

Head of Canada's Union Government

Mr. Frank Bloor, who had been for some time in the hospital, died at his home at a week ago yesterday night, and was buried from the church of the Holy Trinity, St. John's, on Monday night. The funeral was held at 10 o'clock, and was attended by a large number of friends. Mr. Bloor was born in Ireland, and was a member of the House of Commons for many years. He was a man of great ability and energy, and was one of the leading figures in the Union Government.

The food controller said that as the price of foodstuffs rose, the cost of the available food for the poor also rose. He said that he was not so much concerned with the fact that so many people were hungry as he was with the fact that the supply and cost of production of foodstuffs was so high. He said that the food controller was a very busy man and that he was not able to do much for the poor. He said that he was not able to do much for the poor because the food controller was a very busy man and that he was not able to do much for the poor because the food controller was a very busy man.

A False Revolution

The German leaders believe that if they can hold on long enough against the odds, they will be able to turn the tables. They are gambling for the big, make-or-buy revolution. They are betting that this false revolution, which odds are so heavy against, will enable them to believe that Germany has been reborn. They are betting that the United States will not stand by its aid to democracy and freedom. They are betting that the United States will not use all the cards in the game. The point to bear in mind is that the German leaders are organized under their discipline.

CUTICURA HEALS BAD DISFIGUREMENT

Very Itchy, Bored at Night, Could Scarcely Sleep, Hoisted in One Week.

Called the Cure a Pig

Every one at the Hotel who had seen me before I used Cuticura, called me a pig. I was so itchy, I could not sleep at night, and I was so bored, I could not sleep at day.

I had been using Cuticura for some time, and I had seen the results. I had been using Cuticura for some time, and I had seen the results. I had been using Cuticura for some time, and I had seen the results.

THE CONSERVATOR

A Fort McMurray and District Newspaper

AN INDEPENDENT WEEKLY NEWSPAPER
PUBLISHED AT FORT McMURRAY, ALBERTA, CANADA
PRINTED BY THE CONSERVATOR PRESS, FORT McMURRAY, ALBERTA, CANADA

The Oliver-St. Paul Line

Recently a large number of petitions were circulated in the settlements north of the Saskatchewan river in the country which the Oliver-St. Paul line would pass were it completed. The petitions were addressed to Ministers of the Alberta Government and of the Dominion Government, since there seems to be some difference of opinion as to what Government is responsible for the completion of the road. The petitions drew attention to the fact that they have been expecting the road, have been depending upon promises made in the past that it would be completed, and state that many families are moving away and many more must go unless certain facilities are provided at once.

Such a petition should certainly have the careful consideration of both Governments. The district north of the river is as good as a land without any agricultural purposes. Many farmers in spots of a half from fifty to one hundred miles to a railroad are already on the way to fortune. There are many however, who can never go any farther than they are until a closer market for their grain than points along the main line of the C.N.R. is provided.

This from the side of the farmer. From the point of view of the Government of either Alberta or of the Dominion, it must be remembered that strenuous cases are being made for greater agricultural production in the Dominion Cabinet among the multitude of portfolios is one of Minister of Immigration. Why try to get more settlers while breaking faith with those already here? Why should any government call on farmers to produce, produce when that same government in the face of gray-headed promises does not do its part towards assuring a market for the grain grown on the farms in the Pine Creek, Pikan and St. Paul districts? Furthermore, the grading on this line has been done. Some steel has been laid; and ties are scattered all along the right of way. As a measure of economy it would be good business to complete the line.

It is well to remember too that the farmers in this district have made a start; they have stuck to their job in the face of great discouragements; it is only because the future apparently holds no prospect of a railroad that they are giving up.

1918, the year of greatest production should see the completion of the Oliver-St. Paul line as a means not only of simple justice and economy but of true business building.

By the Way

Do not forget the meeting in Council Chamber on Wednesday the 20th at 8 p.m. to discuss ways and means of increasing the amount of ground under garden in the Fort this summer.

The British War Office has made public Sir Douglas Haig's despatch covering the Cambrai operations, which frankly admitting reverses the British Field Marshal states that the operations there gave Italy two weeks more in which to prepare to defend herself.

Premier Clemenceau of France pulled the War Council on two American lieutenants, two sergeants and two privates. This is a French decoration and can be won by any American soldier who with the consent of the American Congress. The bestowal of the honor indicates however the appreciation by the French of the American army now in France.

The collapse of Russia gives Germany her opportunity of expansion outwards at a time when her Bulgarian project seems blocked by British forces. The change of direction does not lessen the menace to Britain, as Persia and Afghanistan are just next door to India.

Armies suffer whatever the fortunes of war. They suffered before the Russian armies defeated the Turks and occupied their territory in Asia Minor. Now that Russian armies have given way, the Armenians are landed over by the Germans to their Turkish allies.

Germany has not been slow to adopt the policy of "half-defensive"—but in rather a different sense than that intended by President Wilson. The German idea is that every individual in her path should have the right to be killed.

The Irish Convention will probably close its deliberations this week. There are still held that a solution of the Irish problem is not far off.

the age-long "question" will be arrived at. Bonar-Law recently stated that measures taken for the suppression of violence were having the desired effect, and that no disturbances are now anticipated.

James L. Barton, Foreign Secretary of the American Board of Commissioners for Foreign Missions, states that there is evidence that at the present time Germany is inundating the Tatars in Russia to manumit 1,000,000 American and 1,500,000 German dollars in Tatar-Caucasus. He states further that if the Moslems had been more humane than the Tatars there would already have been massacres in India, Persia, Russia, Turkey and wherever Moslems dwell in considerable numbers.

**You can now
get all my
medicines at
the Drug Store**

useful in his private practice.
And so it came that Dr. Chase's
medicines were placed on public sale
at nominal prices. Today you can
safely find a drug store which is
stocked with a full line of these medi-
cations, and that hence in the expedi-
ent there is not one or more of
them in use.

Late news articles of sensational death
and burial made Dr. Chase's medi-
cines entirely infamous, and public sale was
immediately abandoned. But the fact
remains that it is very important that you should
own the powerful and enduring A. W. Chase,
M.D., the famous Bostonian
physician, who has been your guide, and
that medicine he has done to us men

The Red Triangle Campaign

The Red Triangle of the Y.M.C.A. has since the war been known almost as well known as the Red Cross. It is doing probably as important a work as the Red Cross. It is doing probably as important a work as the Red Cross. It is doing probably as important a work as the Red Cross.

A great campaign is being carried through in Canada on the 7th, 8th and 9th of May for the purpose of raising \$250,000 for the Y.M.C.A. A committee for Fort Saskatchewan and District is being organized and it is expected that the whole district will be thoroughly canvassed for the Y.M.C.A.

By the Way

Though the last month has had anxious times for the Allies confidence has never deteriorated. The latest cables from the front areas strengthen this confidence. The correspondent writes: "With the German certainty of checking the German offensive, coupled with the known German losses, the Germans at the battle and will be exhausted by the end of the week."

The news that Northville may resign his office as head of the British American Mission Director of Home Propaganda as a protest against the inclusion of America in the War Cabinet makes rather poor reading. Not that Lord Northville's services are undervalued, but the small spirit manifested by such a resignation would be itself a discomfiture.

Secretary Macdonald the other day said "There is no room enough in the great world for all the nations of the American flag, and we are going to make the American flag fly over the land of the world." Very good, but what is he going to do with the German flag? Possibly he would like to see the German flag flying from the spires of Berlin.

Lord Rhondda Cables: "We Cannot Achieve Victory Without Food."

"Canada Food Board,
 -Ottawa"

"In these stern days it is inspiring to learn that Canada is tackling the food problem with resolute energy. The terrific pressure on our military front makes it all the more imperative that those behind the line should strain every nerve to defeat the enemy's avowed object of destroying the British Empire.

"Germany hoped first to starve the Old Country by the submarine campaign and then to smash her land forces. She has failed to starve us and she will fail to smash us but we cannot achieve victory without food. There never was a time when it was more needed.

"The Canadian farmer and the Canadian farmhand now have the opportunity to make an effective reply to the enemy's present onslaughts by bending their undivided energies to the increased production of those food supplies for which we depend so vital extent upon our great Dominion."

(Signed) "RHONDDA"

The Prime Minister of Canada, in a call to Greater Food Production, says: "The crisis is grave and urgent beyond possibility of exaggeration."

Our Allies are depending upon Canada to produce this year more wheat—especially Spring Wheat—and more meat—especially Pork.

The world shortage will inevitably continue for years after the war—with this continent the nearest source of supply for the 200,000,000 persons in Europe who will be clamoring for food.

The Best Farm or Ranch Car

YOU would replace your "general utility" team with a powerful, sturdy, Ford car at once, we believe, if you but saved the matter out carefully.

The Ford is especially suited to western conditions and your needs. It is equal to rough roads, big loads and long distances. These are the very tests to which you put your car.

A Ford will run your errands for repairs, grain, mail and countless other necessities quickly and cheaply. It will save you weeks of time and money. It will be one of your best investments. It will make your life more enjoyable. You need a car and need it badly. The Ford is the utility car for the Western Farmer.

Continuous and monotonous Work - most trying on the Nerves
Doing the same thing, in the same way, day after day and week after week, means destruction to the nerve cells and collapse of the nervous system in the human body.

Dr. Chase's Nerve Food
Whether in the smelter factory or in the home, the stress or the office, it is monotonous that kills. And it is because women suffer from nervous exhaustion and prostration, nervous headaches, nerveless palms and general run-down condition of the body.

Why We Ask For and Expect Your Grocery Trade
BECAUSE as far as it is possible to determine our stock takes in all the good kinds, and leaves the others out.
BECAUSE if you are particular about what we sell, you are particular about what we sell.
BECAUSE we play the game of business fair and square. We make right any mistakes that we may make as soon as we hear of them.
BECAUSE in spite of all these advantages your dollar is as large here as anywhere, often larger.

Britain's Economic Strength

Amazing Financial Strength the Source Behind Victory and Defeat

The wonderful economic strength and endurance of Britain is amply illustrated by the fact that in nearly four years of our costly war, we have not only kept our credit standing in connection with the new bond issues outstanding, but we have been "selling" our war bonds and "war" stamps to the amount the other nations are "selling" theirs. It is a record we can be proud of.

Our financial strength is the source behind our victory and defeat. So well is

The cause of the disaster was enough to open up the eyes of the men.

"We see children died from eating much wheat-milk," the recluse said to the others looking doubtful.

"Hush," he thumped solemnly, "I am not a doctor, but I know wheat-milk."

"Well, then," remarked the doctor, "we must try it." "Hush," the doctor said, "it will kill."

The Whole Hint

PLANS FOR TRANSATLANTIC FLIGHT BY AIR ROUTE TO THE WAR FRONT

AMERICA TO BLAZE A NEW TRAIL TO EUROPE
United States' Pull Power of Airplane Craft to be Brought Against
The Hun, and Bombing Warfare, Says Germany Will Be
Made on Large Scale

The establishment of an air route to Europe from the United States, in order to bring the full force of American air power to bear against Germany, has been the desire of a select group of aviation enthusiasts in this country since the outbreak of the war. The plan is to make the Atlantic crossing in a single hop, and to land at a point in Europe where the air force can be brought into action against the enemy.

There is no doubt that the air force of the United States is the most powerful in the world. It is the only one that can be brought into action against the enemy in a single hop. The plan is to make the Atlantic crossing in a single hop, and to land at a point in Europe where the air force can be brought into action against the enemy.

T & B WEEK

Fill up your pipe with T & B rich,
mellowed, non-spirited Virginia
Tobacco.
This genuine Southern-grown leaf
has a flavor and aroma all its own.
Full bodied, yet soothing. Mother
Nature's best.

No word is necessary to old T & B
smokers. They know it always.
But you—if you have never tried it,
smoke T & B this week, and realize
the satisfaction of using a genuine
Virginia tobacco.

MAKE YOURSELF STRONG

The body is made of muscles, and muscles are made of fibers. These fibers are made of cells, and cells are made of atoms. The atoms are made of protons and neutrons, and these are made of quarks and gluons. The quarks and gluons are made of strings, and these are made of branes. The branes are made of membranes, and these are made of sheets. The sheets are made of planes, and these are made of volumes. The volumes are made of solids, and these are made of liquids. The liquids are made of gases, and these are made of plasmas. The plasmas are made of stars, and these are made of galaxies. The galaxies are made of clusters, and these are made of superclusters. The superclusters are made of voids, and these are made of the universe.

Germany's Luck

During the past few years, Germany has been the most successful country in the world. This is due to the fact that Germany has been able to maintain a high level of production, and to export its goods to other countries. This has allowed Germany to become one of the most powerful countries in the world.

The Fair

"A fine day, a splendid crowd, but when's your fair?" This was the average criticism of last week's Fair Exhibition. And the criticism was on the whole perfectly correct. We had a great day, there was a fine crowd; everything was ideal for the "best yet" fair. But with few exceptions, the Fair was a failure, whereas as a matter of fact we should have one of the best country fairs in Alberta.

Agents for farm machinery certainly appreciate the value of the County Fair. They were on hand with everything that could be used on a farm. Tractors, cream separators, threshing outfit, gasoline engines: these were really the attractions at last week's Fair. It was pleasant, too, in a sense, to see the great line-up of motor cars on the grounds. They attracted the growing province and wealth of the district.

What everyone expected, but missed and what should have been there, were numerous exhibits of cattle, sheep, pig, poultry—the bulk of the poultry was from Edmonton—and garden and farm products from the farms of our District, as well as from outside. That's what the Fair is for, and in so far as they were not on hand the Exhibition was a failure. Great credit, of course, is due those who did exhibit.

One of the difficulties appears to be that there is a decided lack of public spirit on the part of the farmers: they are not good enough citizens to give a little time from their work for the common good.

Another is the lack of co-ordination and co-operation between the Fair directors and prospective exhibitors. There should also be some kind of educational work done to convince people that a good fair is a great one for any community. And finally some new blood, with plenty of pep, and ginger, and with sufficient public spirit to do, especially work, should be injected into the board of directors. The prize list, especially in the Domestic Manufacture section needs renovation.

And furthermore, the new board should get busy at once to make next year's fair really worth while.

Knights of Columbus Campaign

We would draw the attention of our readers to an advertisement in our columns this week of the Knights of Columbus drive which will take place all over Canada from September 15th to September 28th.

The work of the Knights of Columbus in the army is probably not as well known among Canadians as it is among Americans. The K. of C. organization walks arm in arm with the Y.M.C.A. and does a similar work for the soldier from the time he enlists.

Although it is a Roman Catholic organization it draws no lines in the time he enlists. It cares for the soldier who needs help.

It is therefore worthy of the financial help of every one.

Do your bit for the Knights of Columbus—September 15 to September 28th.

Alberta a Dairying Province

The new record made up an Alberta cow, a Holstein, again draws attention to the fact that this Province is rapidly coming to the front as a dairying Province.

Alberta has been a cattle country for years: in early history, as far as an civilized people go, it was up to the cattle-raising industry—Southern Alberta, ranching, broncho-busting are terms which thirty years ago were more or less clearly understood in Eastern Canada.

Today, however, the movement into Southern Alberta of the wheat farmer, has forced out the large rancher to some extent and more and more attention is being given to dairy stock. The interpretation of the Provincial Department of Agriculture, and the encouragement and incentive the Government has offered is now bearing fruit—and good fruit, as evidenced by the new record Alberta has made.

Probably nothing has brought to the minds of farmers the advantages of stock with greater force than the July 20th success of Alberta stockmen at the Federal Agricultural Exhibition in St. Louis.

At Eastern shows should encourage the quick and steady growth of the industry; it should also encourage the devotion of stock raisers to the ideal of pure-bred stock.

attendance Act which covers the age of compulsory attendance explains itself and reads like this: "Every child who has attained the age of five years shall attend school for the full term during which the school of the district in which he resides is open each year, unless excused for the reasons hereinafter mentioned."

Another section of the Act gives the valid excuses for non-attendance.

It will be observed therefore that a pupil is free to leave school upon having attained the age of 15 years.

By the Way

A recent report of the Canada Food Board states that profit-making has been greatly diminished and economic profit-making is being stopped. "For example, flour sold at \$14.50 per barrel in 1937, whereas this summer the farmer received only \$6.35 for the wheat used therein. In the spring of 1918 the price of flour had been kept down to \$11.00 per barrel, while the farmer had received \$8.35 for the wheat used therein."

An Alberta cow has set a new record for Holsteins at the Toronto Exhibition for production of butter fat. This cow, Pouchie Queen Wayne, owned by Samuel Russell of Alton, has with 877 pounds of milk in three years completed 35,085 pounds of milk with 877 pounds fat, and an average loss of 3.87 per cent.

The New York Tribune quotes from the Cologne "Volksfreund" that the "war of extermination" against the Jews by the Christians "which we do not as Christians, but as human beings and as Christians yet much as it is German." These words were among a confession that Hitler was a Jew.

Since the Canadians got into action on the western front more than 20,000 German prisoners have fallen into their hands. Results were never so large or so immediate as they have been in their last month or so.

HUNS ARE ADEPT IN PREPARING HORRORS FOR THE HELL OF WAR

INVENTED POISON GAS ABOUT EIGHT YEARS AGO

That the German Long Nose Had in Mind the Barbarian Plan Of Making Use of Poisonous Gas to Overcome Their Enemies in War Established

The Hun has long been known to the world as a cunning and crafty animal. He has been known to use every device of his cunning to achieve his ends. He has been known to use every device of his cunning to achieve his ends. He has been known to use every device of his cunning to achieve his ends.

These facts were known to the world long before the Hun was known to the world as a cunning and crafty animal. He has been known to use every device of his cunning to achieve his ends.

You pay the same war tax on a pound of cheap port tea that you pay on Red Rose. In other words you pay 100 war tax on a cheap tea which will make perhaps 150 cups to the pound and you pay the same 100 war tax on a pound of Red Rose which easily makes about 250 cups.

You will find today more value, more economy, more real satisfaction in Red Rose Tea than ever before. It is truly a war time tea.

Will on the same day, October 2nd. The former was born on October 2nd, 1881, the latter on October 2nd, 1887.

Official figures show that during the month of August, 1918, British troops in France captured 57,829 German prisoners, including 1,381 officers; they also captured in the same period 607 German guns, 8750 machine guns and some 1380 machine guns.

The most recent revelation of German character in the forcing of every man, woman and child in the city of St. Quentin into Germany. Not a soul was in the place when the Allies entered after capturing it.

There seems to be too much whooping cough in town to warrant a clean bill of health by the H.O. for St. Quentin. There are a lot of children who should be in quarantine who are not. Something should be done at once.

The feeling of the Allies towards peace has been explicitly stated by President Wilson and Premier Clemenceau that it is difficult to understand how any offer of peace from Germany other than a complete surrender can be considered for a moment. President Wilson was curt and to the point with Austria. He will probably answer with similar directness and force the proposals of Germany, meanwhile, the troops of Italy, Persia and Poland along under Marshal Foch, continue to break their way through the most heretofore German wall; to approach nearer and nearer the German borders.

Germany we continue to read reports of frantic people along the Rhine; of panic-stricken houses and exchanges; of the tumbling of war stores—in fact we read of all the signs of a demoralized and terror-stricken foe.

Cauter View Review. The first number of this month has come to hand. The magazine is very well illustrated and is replete with illustrations and information. It is the official organ of the R.A.F. at Long Branch, Ontario. People who have relatives or friends at Long Branch will be interested to procure a copy regularly.

By the Way
The news that the Austrians are pulling out of Albania altogether which was made public at the end of last week, is of great interest in view of the German policy of Turkey upon Austria and Germany. Turkey altogether out of from her friends is just as good as surrendered.

Silver Bullets

Early in the war Lloyd George called on
Britain to win the war with silver bullets.
Victory Bonds are Canada's financial
bullets, bullets and bonds whereby she
will help to consummate the final tri-
umph, and maintain the structure of her
prosperity after peace is declared.

Victory Comes High, But WE MUST HAVE IT!

It is no time to count the cost of Victory—when hundreds of
thousands of our Canadian boys are charging, full of spirit and
with the Home on the way.

There is no time for the Canadian to stop and consider the terrible
price, in blood and money, that war has already cost the world.
When the word goes forth to CHARGE, every man in his nation
must have every man's eyes fixed on the goal, and every man
must have every man's heart set on the goal, and every man
must have every man's hand on the goal.

Here, in Canada, when the word goes forth to "CHARGE," let us all
be worthy of the greatest boys who are fighting on the world's
battlefield for the cause of Victory.

We, as home men, must have the funds that will give the victorious
Canadian boys equipped with food and clothing with love and gener-
osity, with funds and funds. Let us all be worthy of the greatest boys
who are fighting on the world's battlefield for the cause of Victory.

Victory is within our grasp. Conquer the "great offensive" and the
war will be won.

Every dollar you have, or can borrow, is needed to bring back the
boys VICTORIOUS!

Canada needs your money, but Canada is willing to pay for the use
of it.

Every dollar invested in Victory Bonds
will be returned to you with interest.

Sending Money to Soldiers

Those who have friends or relatives at
the front, may wish to send money, but possibly
do not know the best way to do so.

If done properly, the interest and bank
convenient method of sending money
should be the best. Money Order or Draft,
as issued by The Merchants Bank.

If, however, it is necessary to send money

Canada's "Scrap of Paper"

GOOD AS GUINEA GOLD

In Canada, as in all right-thinking nations, good
faith is the foundation of all our business con-
tingents. Without a sound basis of credit our whole
financial structure would crumble and decay.

Credit is the belief of the creditor in the
borrower's intention and ability to pay.

You do not hesitate to exchange four silver
quarters for a Dollar Bill, because you know that
Dollar is as good as Guinea Gold. Yet a Dollar
Bill is only a "scrap of paper" bearing Canada's
statement that it will pay one hundred cents for it.

You have read that statement so often that you
have come to accept it without question.

And Canada has always made good its promise
concerning every "scrap of paper" it has ever put
on the market.

Canada is now offering to investors Dominion
of Canada Bonds, bearing interest at 5 1/2 per
cent. The interest is payable half-yearly
and the Bonds are issued in denominations of \$50,
\$100, \$500 and \$1,000, making a most attractive
and profitable investment.

It is Canada's desire that Bonds of the Victory
Loan 1918 be distributed as widely as possible
among private individuals.

The last Victory Loan, which was largely over-
subscribed, had more than 800,000 subscribers or
1 in 9, of the entire population of Canada.

Every available dollar of private capital in Canada
is urgently needed to surmount that record.

Buy Victory Bonds—they are good as Guinea Gold.

From the standpoint of Patriotism your
duty is clear. But, apart from any con-
sideration of duty and patriotism, Canada's
Victory Bonds represent the safest
surst and best investment in the world
to-day.

A Business Proposition

CANADA looks to YOU for help in making this great Victory Loan a success. Canada needs your money. Ours is a country whose individual citizens are more prosperous than those of any other country in the world. Canada has come to YOU—her citizens—with a straight business proposition.

THAT PROPOSITION, IN A NUTSHELL, IS THIS:

"I lend Three Hundred Million Dollars to help finish up our business over in Europe. Lend me the money for a short time at 3-5 per cent. interest, payable half-yearly, and I pledge the return of every cent of your loan."

Plan to take all the Bonds you can possibly pay for. The payments are as follows:

10 per cent. on application
20 per cent. December 6th, 1918
30 per cent. January 6th, 1919
30 per cent. February 6th, 1919
31.16 per cent. March 6th, 1919

knowledge that Germans are regarded throughout the civilized world as "a nation of blackguards."

But France, which has a cause, has proved her soul in this conflict. She has waged it with clean hands for high ideals, and the spiritual triumph of the victim over her conqueror is today, now, has France ever shown more valor or greater endurance in the field of battle. We have never seen such a nation ever join arms with such worthy allies. — *The Edinburgh Scotsman.*

The yellow canary bird and the blue jays have much in common. The purpose of poison gas delivery is to kill the birds and the moose are much more sensitive to gas than humans. The birds will die of asphyxiation and the moose will show symptoms of distress long before the soldiers know that there is poison gas in the air. The birds are also learning that converted is of instant usefulness, and so the moose are the canary are among the most sensitive to the gas. The white moose is more servicable than the black moose, because (being tame) it is easily managed and does not show signs of discomfort when there is no about.

Tasmanian Tiger Almost Extinct

The Tasmanian "tiger" seems to be a rare male to become as extinct as the Tasmanian "tiger" of the "Tasmanian tiger" of the island is recorded only by a few strong places. In the back districts of eastern Tasmania, the "tiger" was once common enough twenty years ago owing to its taste for mutton, its own water, unknown. It still runs much as the country back of Tasmania beyond the Arthur River, which is still outside the limits of settlement. The "tiger" was once common before the war upon the market worth anything up to one hundred

Town Elections

There will not be any municipal election in Port Saskatchewan this year for any public office. The Mayor and members of the Council and School Board are all elected by acclamation on Monday.

It must be a great satisfaction to those who stood for re-election to find their past efforts meet with such general approval.

Mayor Kidney has given two years of splendid service to the town; no one opposed him for the office this year, and the fact that his nomination papers were signed by most of the leading business men of the town is sufficient proof that he has the confidence of those who stand for re-election in the welfare and progress of Port Saskatchewan.

The School Board now has two women among its membership; Mrs. Rogers, re-elected and Mrs. Foster who comes in for the first time.

Members of the Town Council whose terms had expired were all re-elected and W. J. Foster became councillor for the first time.

The British Fleet

Public men have been fully justified in predictions that the services of the British fleet would be adequately appreciated only after the war.

Although the half has probably not yet been revealed, we are daily getting a more just comprehension of what that wonderful force has accomplished.

We were often told of its feats in conveying troops, mail, and food; we received hints of its activities in dealing with German submarines.

But the unconditional surrender of the German fleet without a struggle—nothing like it in the history of maritime warfare—the revelation of the sad condition physically of that fleet, of the absence of morale among its sailors and finally of the condition of starvation which exists in Germany, Austria and their allies; all these facts proclaim with a kindred voice the efficiency of the British fleet and the correctness of the instinct of the British people which compelled them through years of heavy taxation and struggle to keep that fleet as efficient as in bygone days of Drake and Nelson.

War Savings Stamps

The Dominion of Canada has followed the lead of the United States and has provided means by which small savings may be placed at the disposal of the Government. The method is by the purchase of Thrift and War Savings Stamps.

The Thrift Stamp is a stamp for which you pay twenty cents at the bank, post-office or other authorized agency; you may then provide yourself with a thrift card which makes it convenient to keep the Thrift Stamp you purchase. Sixteen Thrift Stamps with a small payment—five cents—in addition, depending upon the date at which you acquire your sixteen stamps, entitle you to a War Savings Stamp.

The War Savings Stamp is the Government's guarantee to pay you \$5 on January 1, 1925. Then for each \$5 you pay \$4 paid during 1919 you have entitled to \$5 on January 1, 1924.

The War Savings Stamps entitle the holder to a War Savings Certificate which on the 1st day of January, 1925, will be worth \$60.00.

The people of Canada have during the past four years been forced to save. The tendency of the future may be to extravagance. While it is not suggested that money should not be spent, yet the Government having now incurred some obligations to meet such year, obligations cannot be met, the war, still requiring the people to save.

The Thrift Stamp, the War Savings Stamp and the War Savings Certificate form a convenient and patriotic method of laying aside small sums of money.

By the Way

The British parliamentary secretary to the ministry of munitions has declared that the problem facing munition manufacturers is not nearly so serious as that which confronted them when they were on the turn from peace to war conditions. We fancy that the general public will be much less serious than in Britain. We also venture the opinion that the serious manufacturing problems facing government and munition makers are not so serious as they are in England.

Not the least interesting development of the war was

be the great influx into North America and Australia of large numbers of French and English women who have become the wives of Canadian, American and Australian soldiers. An American speaker in New York, the other day stated that at least 10,000 American soldiers have married French girls and that more marriages are to follow.

The French have a proper appreciation of the German. The German delegates to the preliminary peace negotiations are not to be allowed within the city limits of Paris. They are to be quartered outside the city.

Spends judiciously. We are being reminded every day that though the war is over it is still necessary to practice economy. To practice economy—to save—does not mean not to spend, but to spend judiciously; do not waste. To hoard at the present time is not good patriotism; full steam ahead for we are assured of a great future in Canada; only excessive care that nothing be wasted.

Mayor Joseph Plafie endured a good deal of criticism through his connection with the William Davies Co., Ltd. during the war. Now that the war is over the value of his services as Chairman of the Imperial Munitions Board is receiving whole-hearted commendation, especially from Britain, where services appear to be better understood than here in Canada.

It is estimated that the Turks massacred 500,000 Armenians and 700,000 Greeks during the war. Greek property taken by the Turks is valued at \$1 billion francs.

"Laurier, Democracy and Progress"—the Liberal plank as outlined at London, rather general except as to the first, which for the good of the party might well be eliminated. Sir Wilfrid should be content to rest on his laurels.

There appears to be a good deal of laity in enforcing the quarantine of private dwellings in the country districts where there are influenza patients. In order to protect country and town against a recurrence of the epidemic in full strength, quarantine should be strictly enforced. The disease is not now as so feared with.

But the unconditional surrender of the German fleet without a struggle—nothing like it in the history of maritime warfare—the revelation of the sad condition physically of that fleet, of the absence of morale among its sailors and finally of the condition of starvation which exists in Germany, Austria and their allies; all these facts proclaim with a kindred voice the efficiency of the British fleet and the correctness of the instinct of the British people which compelled them through years of heavy taxation and struggle to keep that fleet as efficient as in bygone days of Drake and Nelson.

ST. BETH'S will have its next service on Tuesday at 8 o'clock.

A musical service in memory of the late Mrs. M. C. McCarty will be held in the Episcopal Church in a date to be announced later.

The funeral of the late Mr. George Lawrence took place last Sunday afternoon in the local cemetery. Rev. W. R. S. Kerr conducted the services and gave a short address from John 11: "Then said he that turneth his back upon me shall turn him and drag his own soul after him." The burial was made in the family vault.

At the age of twenty years of age, Miss Mary Louise Lawrence died last week following her many years' illness. She was born in the city of St. Louis, and came migrating from Iowa to Canada by way of the United States.

She was married to the late George Lewis Hays. Her family are still living.

To those fond of outdoor sports, it is a veritable paradise for wintering. Mountaineering, hunting, horseback riding, or automobile driving, but a few of the popular pastimes.

Five hundred miles of grandeur, majestic mountains, roaring falls, rushing cascades, giant cedars and firs are seen along the main line.

The total daily trains operate spirally and modern, equipped with comfort and luxury for the passengers. Any Canadian Pacific representative will gladly give particulars and show illustrations of these inviting vacation resorts.

WON FAME ON ITS MERITS.—The bound popularity that Dr. Thomas' Electric Oil enjoys is not attributable to any elaborate advertising. It has not been so advertised, but is entirely due to the merits of this oil as a medicine. In every city, town and hamlet in the country it is sought for.

The Cause of Appendicitis Now Relatively Known

The cause of appendicitis, a disease which has long been a mystery, has been discovered by a team of American and Canadian scientists. The discovery was made by a team of scientists from the University of Toronto and the University of Montreal. The team found that the cause of appendicitis is a blockage of the appendix, which is a small, finger-like projection at the end of the large intestine. The blockage is caused by a buildup of mucus, which is produced by the cells lining the appendix. This mucus builds up and eventually blocks the appendix, causing inflammation and pain.

"Der Tag" Faded With German High Sea Fleet

London, May 22.—The "Der Tag" newspaper, which has been a leading voice for the German High Sea Fleet, has faded in the public eye. YOUR REPUTATION AS A COOK

depends on the food you serve on the stove and on the quality of the food. Many housewives, on finding that their food is not good, blame the food, but do not know that the food is good, but the cook is not good. For this reason, we have a special offer to you. THREE SIGNIFICANT POINTS about ALBERTA MUNICIPAL HAIL Insurance which should secure YOUR VOTE

THE LIBERAL WITHDRAWAL CLAUSES. Any crop may be withdrawn entirely from the operation of the Act by giving notice to the Secretary-Treasurer before 15th June. Crop destroyed by any other cause than hail may be withdrawn up to 30th of July and a proportionate refund of premium will be allowed.

EASY PAYMENT OF PREMIUMS. Premiums are payable on or before 15th December without interest. This gives you insurance on CREDIT terms at a CASH price.

THE CHEAPEST SAFE PLAN of Hail Insurance yet devised. It is not only a distinct asset to the individual but to the community as a whole. However, the cost is no less than does and probably far lower from carrying individual insurance elsewhere.

1/5 OF YOUR MATCH MONEY GOES TO THE GOVERNMENT

The tax on matchboxes amounts to more than the cost of the matches themselves. As a matter of fact, two-thirds of your match money goes to the Government, and the third goes to the manufacturer. The latter and the handling of the money. But in the money which you get good matches for, you get your money back.

Insist on Getting Eddy's Matches

You avoid paying the heavy tax on an unnecessary matchbox. You get the best quality matches for your money. You get the best quality matches for your money. You get the best quality matches for your money.

PORT SASKATCHEWAN ALBERTA, THURSDAY, FEBRUARY 19, 1924

The Proposed Memorial

Considerable discussion has already taken place in a private way regarding a memorial to be erected to keep the memory of the young men from this town and district who gave up their lives in the great war.

Opinion is apparently quite unanimous that something should be done and at once. The meeting called for March 1st, is expected to bring organization to a head so that action may be taken without any delay.

It does not seem that there will be any debate as to the desirability of having such a memorial. The only question will be "what form should it take?" The proposal has been made that trees should be planted, around one and it certainly seems a good one, is that a Memorial Hospital should be erected. Already there is a fund of between two and three thousand dollars on hand which would give a substantial start towards putting up the kind of hospital we need in the Port.

The scheme which was most generally discussed, however, is that of building a monument in some public place, inscribing upon it the names of those who have fallen, and keeping the grounds upon which the monument is placed as a public park.

Other ideas have not yet occurred to the minds of those interested, and the purpose of Tuesday's meeting is to give a hearing to any new suggestions, and to get the scheme agreed upon under way at once.

Poland

The future of Poland is one of the important and interesting problems with the Paris Peace conference will have to deal.

Poland is geographically a buffer between Germany and Russia; she has a large population of 35,000,000 which are now politically inclined towards Germany and Austria were all united. The estimate of M. Paderewski is that the Polish state would have a population of 38,000,000 souls. With an outlet on the Baltic Sea, which is what Polish patriots are demanding, and with the protection of the members of the League of Nations the national aspirations of the Poles would have an opportunity of being gratified while an effective check on the way of German cultivation of Russia would at once be formed.

By the Way

Fashions change. We used to see pictures of fashionable dames nursing diminutive poodles. Now at fashionable resorts both men and women promenade with a goat under an arm. Wouldn't that get you?

The chequered of the late Sir Wilfred Laurier bears witness to the wonderful efficiency which he was regarded. Thousands of people from all over Canada attended the funeral; thousands visited the building where the remains lay in state; messages of respect and condolence came from all parts of the world. To have been the leader of a great party through a period of forty years, and to have maintained love and admiration of men and women all over Canada during that period is not the experience which becomes the lot of many public men.

Need for food supplies in Germany is reported urgent. This is the result of investigation made by fourteen British officers through Germany. Not only is food scarce there is much unemployment.

President Wilson is said to have yielded to the demands of Allied Leaders that Germany be made to pay to the limit of her ability. A visit to Europe has no doubt modified the President's view on many aspects of the Peace Treaty.

A recent letter from F. H. Simonds who is reporting the Paris Peace Conference for a group of American newspapers, points out that the signing of the armistice by the Germans the other day marks the passing of a crisis. The last three months, he states have marked no progress in the relations of Germany and the Allies; no contrary German hopes in the dream of the realization of President Wilson to the ideal of the League and the British to continue an understanding with the United States, France in a sense had been alone in her concern over the quick recovery Germany had made and the realization of guarantees for her own future security. The warning issued by Mr. P. H. Simonds that that Germany was still militarily strong, and by Premier Clemenceau, an appeal to the conference to deal with the realities of the situation, have resulted in the union of all the Allies in forcing Germany to sign in this final armistice capitulation which becomes a part of the ultimate peace treaty itself.

Letters To The Editor

Dear Sir:

Will you allow me to say in this column that the memorial to the fallen soldiers of the Port of Saskatchewan is a most fitting and appropriate one and that it is a pity that it is not being erected at once.

Now is the time to do a little fixing up around the house.

A little paint or varnish will work wonders. The old worn floors can be made to look bright and fresh with Sherwin-Williams Inside Floor Paint, or Sherwin-Williams Floor.

Don't throw away the old furniture but make it look bright and new by giving it a coat of Sherwin-Williams Varnish Stain.

Do away with the dust and germ collecting wall paper by using the new sanitary wall finish, Sherwin-Williams Flat-tint. A durable all paint that dries with a soft velvety surface—can be washed with soap and water.

There is a Sherwin-Williams paint or varnish to give you every kind of finish. Come and see us about your painting.

Easter Message

The Church proclaims a gospel message of reasonable truth at this time—the message of life defeated and death conquered, and of an enemy no longer vulnerable. By the bursting of the bands of the grave the world was forever broken. Wherever the name of Christ is invoked sinners are forgiven and sinners are forgiven.

That is why in Christ we are freed from "the sin of death," and given the power of the "life of righteousness." May this be our happiness this Easter.

Teach the Children to Save

Habits are acquired early in life. Children, who are taught the value of money and the habit of saving, grow up into good business men and capable workers.
The easiest way to teach children to save, is to start a Savings Account for each child (\$1.00 each) at birth. After a child has saved enough money to make an additional deposit, he or she will have a better appreciation of just what a dollar stands for, and how much work and effort it represents.

Give Children the Care of Your Skin

And don't think that children's skin is any different from yours. It is just as sensitive and needs the same care. Use the same skin cream and soap that you use on your own skin. It will keep their skin soft and healthy, and prevent those red, itchy patches that are so common in children.

Carpenters, electricians, ironworkers and sheet metal workers have declared themselves as opposed to the One Big Union.

The sitting room, with its open fireplace, and the billiard room spell rest and recreation. The beauty of the exterior of this bungalow style home deserves mention. The design has been worked up in brick and brick veneered exterior walls. The deep long verandah approached by wide steps, is also worthy of note. Sub details as a wash room, an ample large, lighted pantry, and a huge kitchen have been taken care of by the architect.

PORT SASKATCHEWAN, ALBERTA, THURSDAY, MAY 19, 1933

By the Way

The town council with great generosity instructed the public works committee to put down five hundred yards of sidewalk. Orders appear to be a secure commodity, so when will our people be leading through them, until such time as our citizens take up the fact that this town needs cement pavement along the leading streets.

Both ends of Ross street from the railroad to Dennis street need paving and the roadway between the levelled white brick sides of Dennis from Greenback to Government street, and along the latter street to the Post-office, similarly should be paved. Orders should not be tolerated even temporarily.

We note with satisfaction that the Women's Institute has taken action towards relieving this town of the ugly conditions of fence enclosures. They are asking both that the method be changed and that the actual execution take place in a larger centre where it would pass unnoticed. It is only fair to the people of this town that the latter should be done; it is but fair to the person who must suffer the penalty of execution that death be instantaneous. We certainly trust that the resolutions of the Women's Institute will find their way to the attention of the authorities at Ottawa.

Germany keeps up her mournful wailing over the stringency of the peace terms. By the absence of criticism which has characterized the Allied press since the terms were announced, the Allies do not quite sympathize with Germany in her distress.

An interesting announcement from the Provincial Department of Agriculture is that W. F. Stevens will open an office for the Department at Grand Forks. From this office he will investigate live stock problems for the district, a realising move for farmers who do not have the equipment of the office. Other districts in Alberta would benefit by similar treatment.

Further proofs of Franco's treacherous losses from the war continue to be made public. Captain Andre Turdian, head of the General Commission for Franco-American War Matters, has after an investigation announced that 695 of French males between 20 and 31 years of age, were killed during the war.

By the terms of a treaty which Germany is called upon to sign the twenty-fourth of her territory, if the provinces in the Saar Valley and in Schleswig and East Prussia go against her, her territory will have been reduced to one-third.

An example of the present humane condition of the American ambulatory is afforded by a certain Archibald Jones, who had been deprived of all his belongings including his last suit of clothes. A messenger from King George of England was delayed for hours while a uniform was provided so that the messenger might be suitably received by the Archibald.

At times when speed is handicapped by a variable, however, the system's flexibility in handling the work which properly belongs to logical sequence is a definite advantage. The delays which are unavoidable when handling farm response requiring special treatment, such as large range areas, which require monthly from 100 to 300 miles separate units of off-grade stock, are minimized.

The latest addition to the modernization of the Neolithicman Corporation's system is the installation of a large number of small lines in the warehouse, ranging from 2,000 to 10,000 feet in length. The High Cost of Living

President Beatty of C. P. R. in an interview in Vancouver the other day, said that the high cost of living is supposed to be the bottom of the present industrial unrest; and that according to his view, a most careful investigation should be made to ascertain if in the present high costs there exists any unfairness on the part of the consumer.

That there is both unfairness and undue profit existing in the present high prices in any instance is undoubtedly the case. It is as much people in Canada do not know the cause of the present high prices, and yet paying high prices not to the producer but to the middle-man an investigation would show that persons through whose hands the necessities of life are passing on to the consumer are receiving far too great a profit.

It would be a great thing for the country to have the light thrown upon the operations of many of these intermediate persons, who, by their means, the necessary necessities for the service they render to the community and such an investigation should materially reduce the cost of living.

Mr. Beatty added however that the development of our resources and the extension of our trade with the constant factor of hard work on the part of the people would assist in bringing about a better condition of well-being.

Government Ownership of Railways

The question of Government ownership of railways is one which is and has for some time been of practical interest to Canadians. The C.N.R. and the Grand Trunk have gradually falling behind in earnings at the same time increasing their indebtedness to the public. Various provisions have been taken to place payment of their securities.

The stage of development in this direction, had reached the point where borrowing had to cease and the two roads must become the property of the Canadian people. Taking over the C.N.R. for example by the government, however, cannot be said to have been done through a belief in the principle of Government ownership of railways, and this question of the Government ownership of railways is as much an open question and a question for debate as it ever was.

The United States government made an analysis of the railways of that country during the war. The American people are now being told to be away from the principle of government ownership. They are the owners of certain railways, rather by necessity than by choice. The experience of the Government in the United States has suggested that the railways now owned by the private corporations in form independent of the government and in fact as independent as may be possible. The policy is a sane one too. For the part of Government owned railways is party politics. Once any public utility becomes the football of politicians it ceases to be efficient.

The evolution of railway ownership in Canada leaves us in the position where the Government is actually owning large mileage of railway crosses for purposes of safety in management to make its own railways independent of the private but at the same time subject to the control through the Canadian Railway Commission as privately owned roads.

By the Way

Consequently on the whole the trend of the times may be said to be away from the principle of Government ownership of railways, though the fact that a government may exercise control of a railway or other public utility or other business is a good one for executives of private corporations to keep in mind.

THUMBIES ARE STAGNANT
The war is responsible for the stagnation of the thumbie market in Spain and Portugal as well as without supplies. Before the war, thumbies were made in Little, Kernsburg and Victoria, and there are only a few thumbies left in the market.
